This is a good addition to my library on Japanese ceramicsBy SueThis is a good addition to my library on Japanese ceramics. It has some useful information, however it is impossible to create a reference book that includes all of Noritake wares and marks.0 of 0 people found the following review helpful. NORITAKE HISTORYBy millie91GREAT PRICE FOR A GREAT BOOK.

An all-new collector's encyclopedia, designed to be a companion volume to the first--with no duplication of listings. Contains current values, tips on photographing a collection, buying and selling through the mail, and nearly 1,000 full-

color photos.
