Lots of info on toys you don't see every day and the hard to find wooden toys and dolls1 of 1 people found the following review helpful. Worth every penny!By Kathleen CreightonI didn't think there was a doll book I don't already have, at least not one worth having. But this is one of the nicest. Gorgeous photos and I like the information about wood toys as well as dolls. Definitely worth the money.0 of 0 people found the following review helpful. Both volumes of this book are GREAT!By Angie2I own both volumes of this book and both are great! You cannot go wrong with buying both volumes ,or just one. Together though, both volumes are so valuable!But if you must own just one of the volumes (in this series) then buy this volume first, then see if you need the next volume. It

could be that this volume fills your need, since this volume is packed with soooo much information! Also, the color photos are just great!
