[Download pdf] Conjugated Polymer And Molecular Interfaces: Science And Technology For Photonic And Optoelectronic Application

## Conjugated Polymer And Molecular Interfaces: Science And Technology For Photonic And Optoelectronic Application

From CRC Press : Conjugated Polymer And Molecular Interfaces: Science And Technology For Photonic And Optoelectronic Application before purchasing it in order to gage whether or not it would be worth my time, and all praised Conjugated Polymer And Molecular Interfaces: Science And Technology For Photonic And Optoelectronic Application:

0 of 1 people found the following review helpful. Diacetylenes with dendrimers can also crystal engineered in order for ...By Myounwoo Kim Diacetylenes with dendrimers can also crystal engineered in order for topochemical polymerization takes place. It should be interesting to investigate polymers from such monomers in terms of photonic and optoelectronic applications.

Defines the state-of-the-art in interface science for electronic applications of organic materials. Updates understanding of the foundation of interfacial properties. Describes novel electronic devices created from conjugated polymers and organic molecular solids.

"From the foreword... This collection is unique in its emphasis on interfaces in electronic devices fabricated from organic materials. I specifically recommend the book....a resource that is both useful and relevant." ---Alan J. Heeger  
Nobel Prize Winner in Chemistry, 2000 University of California, Santa Barbara
