[PDF] Conquest of Mexico

Conquest of Mexico

Michel Gomez : Conquest of Mexico before purchasing it in order to gage whether or not it would be worth my time, and all praised Conquest of Mexico:

0 of 0 people found the following review helpful. The beauty of ancient Mexico and Spain.By Agustn de IturbideAn excellent book that is historically accurate about mostly everything it shows. The reader will find pictures beautifully crafted that display the robes and clothing from the glorious aztecs, as well as the armor and equipment from the Conquistadores.Highly recommended!1 of 1 people found the following review helpful. Conquest of MexicoBy CustomerI like the book for its information on the troops and natives. The art work is great. I use it to paint my model soldiers. There are books that go into the subject more than this book but I am pleased with it.

A full color book depicting the uniforms and equipment of the Spanish and indigenous forces during the time of Spain's expansion in the Americas, together with paintings, graphics, organizational charts and maps. The book offers a compelling history of the campaign as western medieval "Civilization" clashed with the cultures already rooted in what is now modern day Mexico. The book will be of interest both to historians of the period and to wargamers and modelers.
