Corvette or "Corvette" ,2016,Book,small hardcover,compilation of previous books-nothing new.-Could be better.By Jose LopezCorvette or "Corvette" By Auto Editors of Consumer Guide,2016,Small Hardcover that comes without Dust Jacket,Red Cover,Corvette ,Little stars on the cover,Wet Corvette Emblem close up, ISBN-10: 1680225480,ISBN-13: 978-1680225488,320 Pages.,Publications International,"PIL" Pil,Pilbooks Pil Books.:When this book came to my attention I went to where I could find the book the publisher oddly did not even know about it's own book when I contacted them directly,the gentleman had no clue in the department that handles this.Only to tell me the last Corvette book Was 60th Anniversary,well this is a Corvette book and it's out.I went to Kohl's after placing my order and picked up the book. It's a Little Book,Tiny really,If you own The Small Hardcover with the Yellow Z06 on the cover by the publisher it's the same size as that book more or less.I am a little disappointed not just in the size but basically the same old pictures rehashed for another re-release,this book does Feature the Corvette C7 Grand Sport,but it's just basically a compilation of previous books as those previous books were compilations of previous books as well.Books of which I all own because I am the Ultimate Corvette Fan,Corvette Yesterday and Today,Corvette America's Sportscar by Publications Intl,Corvette Sports Car Super Car by Publications International,2007(Not the Terry Jackson one)Corvette American Icons and Corvette 60th Anniversary book all by the same publisher.What I like is that it's compact although by the same token I don't like that it's small either,The Cover is pretty neat,but with not much new it's just a book to fill a book,somewhat

disappointed. The book comes new without a dustjacket, Only A Corvette Fan Like me can forgive that this is a rehash but at the same time still own the book. If you are not into owning the same books I highly don't recommend it, if you like to complete collections and are just crazy about Corvettes, or don't mind or want it just for the very brief update then I recommend it. 0 of 0 people found the following review helpful. Great Corvette Book By Pat Mc Cune Very nice book. Very informative'

The full history of America's best-loved sports car, from the 1953 original to today's sleek road rockets. Hundreds of color photos and concise captions. Rare factory shots and ads, secret prototypes, and the full spectrum of showroom fresh production Corvettes. Every model year is covered. Features all the special models, too, including Corvette Super Sport and Grand Sport and much more.
