[Ebook pdf] Create Tarot Naturally

Create Tarot Naturally

Gillian Avart : Create Tarot Naturally before purchasing it in order to gauge whether or not it would be worth my time, and all praised Create Tarot Naturally:

Create Tarot Naturally is a comprehensive guide to construct your own personal tarot cards. Gillian Avart shows you how to create a personal worksheet: a description of the pictures she uses; how the photos link to traditional cards; informs you what to say when the card is picked; how she came across the pictures; and what to look for. After you

have created worksheets for different types of cards (Majors, wands, cups, swords, disks), there is a quiz for each one to test your knowledge and understanding. Finally, she gives step-by-step instructions on how to print, cut and prepare the cards, how to give readings and - importantly - how you can learn from her experiences to make your project run smoothly and trouble-free. Whether you are a novice or already an avid Tarot reader, this guide could be what you've been looking for.

About the Author Gillian has been involved with the psychic and healing arts since childhood. In the 1990s she began teaching adults and became Manager for Hair, Beauty and Complementary therapy in one of the UK's largest Adult Education providers. Since retiring, Gillian has been able to devote her time to her Chill with Gill blog and has created the original and inspirational Tarot Naturally cards.
