Custom Knifemaking: 100 Custom Knife Related Projects in the Making

David Darom : Custom Knifemaking: 100 Custom Knife Related Projects in the Making before purchasing it in order to gage whether or not it would be worth my time, and all praised Custom Knifemaking: 100 Custom Knife Related Projects in the Making:

0 of 0 people found the following review helpful. step by step custom knifemakingBy JBNo matter what your skill level is with metal and tooling, if this book doesn't inspire you to get off your A** and get busy making the best knife you can, nothing will ! Most of the knives in this book are too fancy to ever use and would end up being stored, but that is just my opinion. Maybe rich peeps actually use these knives for everyday Hunting and Fishing?? If you are a beginner, trust me, your first knife will Not turn out like the ones in this book except in your eyes it will be a thing of beauty...4 of 4 people found the following review helpful. Can I give ten stars?By Alessandro BrunelliIn one simple

book, a magnificent and rich look on the art of knife making with hundreds of pictures and explanations. A journey with many of the best knifemakers who each show individually the making of a custom knife from A to Z. Many techniques are illustrated to give a broad view of this art. A magnificent book which is incredible cheap for the documentary value. A must have book along with the other books by David Darom. 0 of 0 people found the following review helpful. I like looking at my knives which are published in his By StickyRick the last book missing from my collection, now I have them all. I like looking at my knives which are published in his books

An illustrated study of the makers and their working techniques, this book takes the reader through every stage of the knife-making process.
