Ok, but not great explanationsBy JenniferThese are pretty ideas, but I didn't care for the patterns and the instructions weren't as easy as in some other books. It's a nice sized book and the ideas could be used so still a good value, just for my personal taste it wasn't my favorite. Not a good beginner book.1 of 1 people found the following review helpful. Decorative painting with Gretchen CagleBy ziads1It's pretty basic. But has a number of good projects for the beginner.The price was right and I will add it to my library of art books.0 of 0 people found the following review helpful.
