The silver bible!By Robert RootThis book is amazing. It is a MUST for any reference library! Everything and anything one could possible have a question for silver during this time period is here.If can't find this in the store then look at your library. I can't speak highly enough about this book. I have used it for years and never saw one better!

The 'Directory' covers the period when Britain was the foremost industrial country of the world. It contains 4,000 biographies of very diverse traders, together with 15,000 makers' marks, illustrated and arranged to allow easy identification. Based on the records of Goldsmiths' Hall, this is the most important reference on British 19th century silver and is essential for all collectors, dealers and historians.
