before purchasing it in order to gage whether or not it would be worth my time, and all praised Lincoln Head Wheat Penny Tribute Board (Whitman Tribute Edition Coin Boards):

I've been looking for ways to display some coins in my house without having to frame/display anything rare/valuable (fear of visitors, party guests, etc). These were perfect for what I was looking for with my circulated wheat penny finds. Still have a few slots to fill, which I will do sooner or later.My only issue is not to do with the board itself. I am assuming it has more to do with the seller and the way these

boards were stored. Mine was faded on both sides thanks to the sun, warehouse lighting, or whatever caused it. Unfortunately, since there was a paper band around the two under the plastic wrap, there is a perfect band of non-faded area. It doesn't really bother me since it's uniform on both boards, but for those who are worried about it, keep that in mind. It's really a great board. If you are looking to do just one coin per year, and not worry about the P,S, D mints, this is not the board for you. There are three slots for each year. Gives me something to work towards, but some people don't care about the other mints. 1 of 1 people found the following review helpful. Looks Good By Aztec Becca I'm not going to open this and try putting the coins in since this is a gift. However it looks very nice and I like how there are extra spots so if you have a few favorites from the same year you can place them in the extra spots. This is a xmas gift for my bother who is almost 12. He gained interest in collecting coins a number of years ago and is still interested. I figured it's time to split up some of my Dad's Wheat Penny collection with him since my Dad gave it to me before there was even a thought of having a 3rd child. I think half the fun will be going through the pennies and sticking them in so I'll try to find as many of the years in my collection to give and then let him sort through and place them. 0 of 0 people found the following review helpful. Three Stars By Ken K It's super easy to bend the cardboard, and super difficult to remove the pennies once they've been put in.

This is a special set of Whitman Tribute Edition Coin Boards - a commemorative reissue in the classic style of coin boards made by Whitman Publishing starting in the 1930s. Before that, collectors had few options (beyond expensive albums and cabinets) for storing their coins. With these boards, coin collecting grew into a popular hobby for the whole family. Eventually they developed into the best-selling line of Whitman blue folder still used by millions of collectors today. 90 Openings per board. Two Boards. Complete date range, 1909 - 1958.
