More doing with the people that are linked with the .50 BMG. Similar to an Elmer Kieth entry were the 44 Magnum is mentioned. Still a good book just not as in depth or ballistic related as originally informed it would be.0 of 0 people found the following review helpful. 50 BMGBy charles t breckenridgeAs a new owner of a Barrett 50 model 95M this book was great. It filled in a lot of data about the rifle and reloading for it. If you are thinking about buying a .50 this book is worth the money.0 of 0 people found the following review helpful.
