Garry Bennett's work is to say the least "unique". I don't know where Garry gets his ideas from, but they are definitely not traditional.The jewelery is interesting to look at too.

I have seen a lot of similar jewelry recently, and judging by the dates of Garry's creations; he was ahead of the curve.The whole book is superbly illustrated, well written, and entertaining.I'll soon be donating this collectable book to one of my local art colleges.
