This is the first time I've bought a secondhand book of her miniture figures, it was printed in 1979. It arrived in very good condition. The pages are slightly yellowed from age and a slight musty smell but in very good clean condition.The figures in this book are old fashioned and I love them especially the maidens going round the May Pole which is pictured at the back in colour. There aren't many coloured pictures, most of it is in black and white. You can trace the patterns from the book to make these lovely creations.I'm posting a picture taken of the back cover, I like it better than the one on the front.1 of 1 people found the following review helpful.
