## Manual of Swedish Handweaving

**Ulla Cyrus-Zetterstrom : Manual of Swedish Handweaving** before purchasing it in order to gage whether or not it would be worth my time, and all praised Manual of Swedish Handweaving:

I bought the 1984 edition, used, for about \$6.99, and it's a good clean copy. The book contains many weave structures I'm familiar with, only with different names and shaft one where I normally expect shaft four to be. However, there are many weave structures that are new to me, and they are not in the American weaving books, so I'm looking forward to trying them out.9 of 14 people found the following review helpful.
