2 of 2 people found the following review helpful. Down DirtyBy WoseThis newest book by Martin Parr succeeds on many levels. The photography is taken on the beaches of Rio and everything over-the-top is captured. To play it up even further the book was designed and printed very cheaply by a local press. The pages are cheap, the printing is second-rate, and it all comes out enhancing the subject matter of the book. Parr has succeeding in creating an interesting photo book object that is well worth checking out. Limited to 2,000 copies, hardcover format, full color.

First edition, first printing. Hardcover. Photographically illustrated paper-covered boards; no dust jacket as issued. Photographs by Martin Parr. Text by Susie Parr. Unpaginated (64 pp.), with four-color plates throughout. 8-1/4 x 5-1/2 inches. This book was not distributed in the United States. From Magnum: "Between 2006 and 2008 Martin Parr documented the differences in beach culture between Latin American countries whilst traveling with his wife Susie.

Her text accompanies the photos in the book. The book is printed to look purposely cheap, with noticeable imperfections, somewhat like a book you'd find in a 99 cent store, complete with offset colors and gaudy clip-art style graphics."
