Metal 98: Proceedings of the International Conference on Metals Conservation, Draguignan, France, May 1998

William Mourey : Metal 98: Proceedings of the International Conference on Metals Conservation, Draguignan, France, May 1998 before purchasing it in order to gage whether or not it would be worth my time, and all praised Metal 98: Proceedings of the International Conference on Metals Conservation, Draguignan, France, May 1998:

The ICON-CC Metals Working Group held a conference in Figanieres-Draguignan, France in May 1998 - this volume presents 60 papers from the conference which report on the range of techniques and materials used in metal

conservation, different objects and assemblages of artefacts. Taken together, they form a comprehensive survey of recent developments in conservation science.

About the Author William Mourey is head of the Conservation, Restoration and Research Laboratory at the Archaeological Research Centre of CNRS and director of the Centre Archeologique du Var, Draguignan, France. Luc Robbiola is a scientist at the Laboratory of Structural Metallurgy (CNRS-CECM) and is head of the Electron Microscopy Unit at the Ecole Nationale Supérieure de Chimie, Paris, France.
