Five StarsBy Gayle McMillanNice little book, very detailed, easy to take along when I go to garage and estate sales.1 of 1 people found the following review helpful. great little bookBy Kathy ComerI received this book in a timely manner and is in great condition. I love this also, as I can put this in my purse for reference when I'm shopping.3 of 3 people found the following review helpful. Novice ReviewBy BeaconiaThis publication was most helpful in identifying the vast array of pottery and porcelain marks found on various collectible items. As these marks can often be confusing it was a pleasure to find such a simple, concise and common sense identification log in one compact volume. Well done.

A handy and easy-to-use guide containing more than 3,000 commonly found marks for all types of pottery and porcelain, with information on the makers, factories and artists they represent for on-the-spot reference. Line drawings illustrate the different styles and patterns. Everyone from the novice to the expert collector and auctioneers too will want to own this.
