## National Park Quarter Pds Mint Album Vol I

**Whitman Publishing : National Park Quarter Pds Mint Album Vol I** before purchasing it in order to gage whether or not it would be worth my time, and all praised National Park Quarter Pds Mint Album Vol I:

1 of 1 people found the following review helpful. FairBy Jon CampbellThe layout is in four coin rows with four rows on each page in spite of the fact that the coins are minted in three to a type. This means that the types are not placed together and sometimes span pages. There is a misprint on page two listing 2011 S Chickasaw as 2012. There are 5 blank openings at the end. After all the years that Whitman has made coin albums, I expected a higher quality design and certainly no printing errors.1 of 1 people found the following review helpful. coin bookBy kristiewhen I first got this coin book . i put all of the coins that i have in it. i sure like it is better than the other ones i saw . so if you are looking for a good coin book this would be it.1 of 1 people found the following review helpful. National Park

QuartersBy Marty M.I liked the clear plastic sleeves that slid over the quarters and kept more fingerprints from going on to them
