There is a sampler beginning on p 60 of the book that I am currently following and all the instructions for it are well-written and understandable. I agree with a previous reader's comment of not purchasing over \$15 for this book. I agree: "Price gougers they are".3 of 4 people found the following review helpful. great referenceBy Native OregonianFor someone who has been weaving Navajo on and off for 30 years, this is a great old resource. It has info that are in no other printed instructions for Navajo weaving. Just don't by more than about \$15 for it. Some are trying to sell it for over \$100, money grabbers, they are.1 of 2 people found the following review helpful. Five StarsBy nancy malcolmGREAT book to learn the navajo weaving Technics.
