(Read download) The Great Dirigibles

The Great Dirigibles

John Toland : The Great Dirigibles before purchasing it in order to gage whether or not it would be worth my time, and all praised The Great Dirigibles:

Daring flights of early pioneers, descriptions of great American airships, much more beginning with pioneer invention by Dr. Solomon Andrews in 1865 and ending with the Hindenburg crash in 1937. ". . . a dramatic account of a lost

cause and the heroic men who fought to keep it alive." Chicago Sunday Tribune. 32 photos.
