Dan Shideler : The Gun Digest Book of Guns Prices 2011 (Official Gun Digest Book of Guns Prices) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Gun Digest Book of Guns Prices 2011 (Official Gun Digest Book of Guns Prices):

ShieldsThe book may be well documented and the values reasonable, but finding a particular rifle / gun and model is a nightmare. There is little rhyme or reason to the

sorting. First, the book should be broken up into Pistol, Rifle, Shotgun, and Rimfire. Next under each manufacturer, either list by model number or time... Breaking up into the segments as done made no sense. For instance, Model 1890 Winchester and Model 62 are very similar and more or less continuous designs, but are far apart. 0 of 0 people found the following review helpful. Four Stars By Edwin M. Cochran Happy with seller. Needed the book to appraise "family guns".
