Caution: Same book as 1st 2003 EditionBy BookLuvr39I bought this 2nd edition of the Gun Digest Book of the Glock, published in 2008 thinking it would be a new and different edition. Unfortunately the 2008 2nd edition is exactly the same book as the 2003 1st edition except for the cover. The 2nd edition contains the same text, the same black and white photos, the same identical chapters as the earlier 1st edition. There is nothing new in this book.It's a fine book with lots of useful information, but re-packaging an older edition without any updates in it is a bit deceiving. If you have the original edition, forget this one. It's the same book.3 of 3 people found the following review helpful. Title should read " I

Glock is a popular pick - an estimated 2.5 million people from 100 countries own one."The Gun Digest Book of the

Glock, 2nd Edition," expands on the success of the first book with many new photos and hard-to-find data. The Glock's dynamic presence in the military and law enforcement circles around the world, including 65 percent of the U.S. law enforcement agencies, speaks to its innovative design and durability. This new edition also delivers the reliable and detailed model and production data you look for in a good gun guide, along with the extensive equipment guide with the newest models, plus step-by-step illustrations demonstrating ways to maintain and accessorize your Glock.
