No question, the best book ever on Alice Cooper Collectibles ever!By PERRY D COXAs author and co-author of the Beatles collector book series for nearly 28 years, I know how much time and effort goes into compiling and assembling a book of high quality like this. Mr. Sherman's first offering was outstanding on it's own right, but in this 2nd edition "10th Anniversary" offering he raises the bar even higher. This book details and lists just about every prominent record, book, and video release ever issued by our hero (and his

band(s)) for the last 40+ years. As well, he covers many very obscure issues many of you probably didn't know existed. It's a huge bonus that AC's TV appearances are included here as well making this a pretty complete and comprehensive media reference. This book is a bargain at twice the price. If you're an Alice Cooper fan or you are into collecting him at all, you absolutely have to have this book. Great work Dale! This was clearly a 'labor of love' for you and it shows. 0 of 0 people found the following review helpful. Dale Sherman...brilliant By Mark R.
