following review helpful. Revised Edition of a Nifty Coin Collecting Guide! By Mike O'Connor Published by Krause Publications in 2013, this is the second edition of Arlyn Sieber's THE INSTANT COIN COLLECTOR, which originally appeared in 2009. For anyone interested in coin collecting, Sieber's book is worth a look. It's an entertaining, comprehensive and well-illustrated introduction to the hobby. Sub-titled EVERYTHING YOU NEED TO KNOW TO GET STARTED NOW, Sieber's book pretty much lives up to that claim. Topping off at 238 pages, he delves into 'Getting a Handle on Coins,' 'How to Get Started,' 'What to Watch For,' etc. Illustrated with hundreds of bw and color photographs and drawings, the book explains numismatics in straightforward, easy-to-understand language, providing a ton of information on basics such as terminology, grading, storing and handling along with helpful hints on collecting strategies and so on. In short, THE INSTANT COIN COLLECTOR is an excellent primer on numismatics and, at \$16.99, it's a bargain as well. Highly recommended..

Ready...Set...Collect! If you've been itching to do something with those coins jingling in your pocket, but never knew exactly where to start, meet The Instant Coin Collector. With hundreds of color images and numismatic know-how that only comes from an expert, author Arlyn Sieber
