Detail on the individual or story represented by each stampBy Midwest Book ReviewThe Jewish World In Stamps: 4000 Years Of Jewish Civilization On Postage Stamps by Ronald L. Eisenberg is an amazing, full-color, 288 page volume that meticulously reproduces postage stamps portraying events and people

throughout the whole of Jewish history. The Jewish World In Stamps ranges from biblical stories such as the tale of Esther, to the Diaspora, to rise of Zionism and establishment of the state of Israel, to Jewish traditions and values, to World Jewish Communities, to modern-day Jewish entertainers such as Groucho Marx. Succinct entries flesh out the background detail on the individual or story represented by each stamp, and the color illustrations are the next best thing to having an international stamp collection of one's own. The Jewish World In Stamps is an exciting and seminal work that makes both the world of stamp collecting and Jewish history itself come alive.

In hundreds of full-color stamps from many lands, this book depicts a small people who continue to leave their imprint on every area of human activity, from faith and morality to sports and motion pictures.
