Married to the woman he loved, a baby on the way, a friendship he cherished, a job he loved - all the things that made Jimmy Gates who he believed himself to be - now would be tested in a way he had never experienced. Could this test not only cost him the ones he loved, but the very essence of himself? Carly Gates loved the life she shared with her husband. Whatever tribulations they had endured to get to where they were now were over and they could focus on the life they planned. Or could they? The sudden abduction of her husband would cause her to not only fear for their life together, but for who she believed her husband to be.
