The Model 1891 Carcano Rifle: A Detailed Developmental and Production History (0)

Giovanni Chegia, Alberto Simonelli : The Model 1891 Carcano Rifle: A Detailed Developmental and Production History (0) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Model 1891 Carcano Rifle: A Detailed Developmental and Production History (0):

0 of 0 people found the following review helpful. Carcanos fans open your wallets for this bookBy
VolksJonWonderfully illustrated with color photos. History behind each model of carcano. History on the development of each caliber ammunition. Parts breakdown and illustrations on each model. . A wealth of knowledge for the Carcano fan.0 of 0 people found the following review helpful. Has some nice "extras" such as the section on toy riflesBy CustomerPlenty of detailed information, such as rifle markings and arsenal output numbers. Still working my way through reading about all the covered variations. Has some nice "extras" such as the section on toy rifles. Very informative.0 of 0 people found the following review helpful. This book was long over due, thank you!By

Richard FameVery thorough. I been looking for a book on the Carcano rifles for years. I have books like this on other rifles but I could never find the one I liked with all the information I was looking for in one place on the Carcano. This book was long over due. Thank you!

This book is a complete history of the Italian Model 1891 Carcano rifle and variants that served as Italy's standard service rifle in World War I and World War II. It describes each major component of the weapon, as well as addressing the development of each variant in detail. One section of the book is devoted to all markings that have been identified, including those on the receiver, barrel, sights, magazine, and stock. Profusely illustrated, extensive appendices list serial numbers, production totals, inspection procedures, ammunition types, ammunition clips, ammunition boxes and packaging, ballistics data, accoutrements, and the Model 1891 as used by Italy's national marksmanship association.

About the AuthorGiovanni Chegia was born in Cagliari (Sardinia) in 1951 and now lives in Genoa with his family. Alberto Simonelli was born in La Spezia in 1961; he owns a company that specializes in repairs and restoration of all-wheel drive vehicles. Ralph Riccio is a retired U.S. Army officer who has authored, co-authored, and translated a number of books dealing with Italian military subjects, as well as authoring books on Irish military subjects. He lives in Pennsylvania with his wife Charlene.
