Besides my reading glasses I will need a magnafine glass to see it. The Beckett price Guide books are pretty worthless.1 of 1 people found the following review helpful. Fantastic!By Timothy

BarnardThe best offical price guide i have ever used. Lots of prices for the collector at heart. Just keep in mind sometimes card values can change according to who you are buying it or selling it to. Well worth the purchase.0 of 0 people found the following review helpful. tiny print, limited coverageBy Cary GrantI needed a magnifying glass to read the listings - the book covers a relatively small number of baseball card issues - I preferred the Sports Collectors Digest Standard Catalog ofg Vintage Baseball Cards.
