**The Official Blackbook Price Guide to United States Paper Money 2014, 46th Edition (Official Blackbook Price Guide to U.S. Paper Money)**

**Thomas E. Hudgeons Jr. : The Official Blackbook Price Guide to United States Paper Money 2014, 46th Edition (Official Blackbook Price Guide to U.S. Paper Money)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Official Blackbook Price Guide to United States Paper Money 2014, 46th Edition (Official Blackbook Price Guide to U.S. Paper Money):

5 of 6 people found the following review helpful. Awful organization; errorsBy ZEDHard to understand unless one is a dyed-in-the-wool collector and extremely knowledgeable about paper money.I have a few silver certificates and older paper which Pop had saved. I am down-sizing, and wanted to see what they were worth, other than face value. Organization here and definitions are not clear.Once upon a time, I also had full and half sheets of dollars from maybe 20 years ago when the govt was selling them in a paper frame. I bought a few for fun and gave a couple as gifts. I don't have them anymore, but DO remember themNOTE: this book is in error when it talks about full uncut sheets...says that only some were made and they are very rare AND of a different date and size than those which I had...totally WRONG WRONG WRONG. Thus, even if I could understand the rest of this book, I would not trust it!! BTW, the uncut sheets are in a separate section, so there is no mistaking the text as written,I don't like or trust this book. Too cheap to return, but would not buy it again. Will have to find another source for my purposes.1 of 1 people found the following review helpful. Official Blackbook Price Guide to United States Paper Money 2014 46th ed.By George SI did not know how many kinds of Notes our government has issued. I am not sure it is a guide or a history book. Only problem is that every year, it has to be updated but that is the nature of collecting and curiosity.0 of 0 people found the following review helpful. good resourceBy Richard CarrollNot a big paper money collector, but there are a few I would like to collect someday. This book tells how paper money is graded and what to look for if the bill has been 'repaired'. Plan to take it with me to collector trade shows.

The Official Blackbook Price Guide to United States Paper Money 2014 is an indispensable, easy-to-use sourcebook for collectors. Filled with the most current values and the latest market reports, this guide has all the information you need to become a knowledgeable collector of paper money.Features Include: Listings for every national note issued from 1861 to the present Over 6,000 current national market prices Hundreds of photos for easy identification An updated market review that traces current trends in collecting and investing A special report on uncut sheets and mule notes Extensive information on buying, selling, and grading notes at auctions, online, and through the mail
