Well it may say Price Guide in the title, but it spends more time of the evaluation and grading of old books. I bought this to help with my selling of old books on online auction sites, and none of the old books I have are listed in this book as far as the book listing/prices go. BUT it did help me in other areas. It helped me in evaluating or grading the condition of the old books I have, and in turn I have been descriptions on my online auctions. This book has moderately in depth discussions on a review of the market, a closer look at the book trade today, the impact of the internet as far as buying and selling old books goes, the care and repair of old books. This book also includes a glossary, abbreviations, a listing of more than 15,000 books and prices, a listing of Bibles, Old Book dealers, and recommended periodicals and research resources. 1 of 19 people found the following review helpful. Old Books - A to Z By A Customer Nice hardcover A to Z listing by author.

THE MOST COMPLETE COVERAGE FOR SERIOUS BOOK LOVERS AND COLLECTORS--WITH THOUSANDS OF NEW LISTINGS! Like fine wine, books become better with age--and increase in value!
